

XSPONSE

LinkedIn Campaign — School Safety Enhancement Grant

Channel: LinkedIn (XSponse company page). 5-post series with organic copy + paid Sponsored Content variants. Each post pairs with a 1200×1200 square graphic (included in the /linkedin folder).

Audience	K-12 superintendents, principals, district safety & emergency-ops directors, school board members, SROs, business officials. Geo: U.S. Layer interest targeting: education administration, school safety, public safety.
Goal	Awareness of the \$93M SSE grant + drive qualified districts to the XSponse grant page to scope a plan before July 28, 2026.
Cadence	Organic: 2 posts/week over ~3 weeks (Post 1 → 5). Paid: promote Posts 1, 3, and 4 as Sponsored Content; A/B test the two strongest.
Destination	https://xsponse.com/federal-grant-funding-for-school-safety/ (public). Tip: add UTM tags, e.g. ?utm_source=linkedin&utm_medium=paid&utm_campaign=sse_grant
Posting tip	For organic, put the link in the first comment (not the body) to maximize reach; keep the body link only on paid.

Replace [link]/destination with UTM-tagged URLs before running. Emojis are optional — remove if off-brand for the page.

Post 1 — Awareness — the opportunity

Paired graphic: linkedin_1_93million.png
Format: 1200 × 1200 (square)
Goal: Awareness — the opportunity

ORGANIC POST COPY

There's \$93 million on the table to make schools safer — and most districts don't even know it's there yet.

The U.S. Department of Education just opened the School Safety Enhancement (SSE) grant: roughly 30 awards of \$500K–\$5M to strengthen school safety systems and the physical security of schools.

It funds the things that actually save seconds in a crisis — emergency communications, deterrents, secure entry, coordinated response, and active-threat training.

The deadline is July 28, 2026. Here's what your district needs to know <https://xsponse.com/federal-grant-funding-for-school-safety/>

Post 2 — Eligibility — states apply, districts benefit

	Paired graphic: linkedin_2_states_apply.png Format: 1200 × 1200 (square) Goal: Eligibility — states apply, districts benefit
---	--

ORGANIC POST COPY

"Can my district apply for the SSE grant?" Not directly — and that's the part most people miss.

States apply (one application each), then subgrant the funding to the districts they identify as having the greatest need.

Translation: the districts that show up with a clear, scoped safety plan are the ones that get funded.

~30 awards · \$500K–\$5M each · up to 3 years.

Don't wait for your state to call. Get grant-ready now ☐

Post 3 — Why XSponse — allowable uses

XSponse
WHY XSponse

Grant-allowable. By design.

- Emergency communication & mass notification
- Deterrents & security cameras
- Secure entry & automated lockdowns
- Emergency response coordination
- Active-threat training for staff & SROs

One platform. Every layer. School Safety Enhancement Grant

Paired graphic: linkedin_3_allowable_uses.png
Format: 1200 × 1200 (square)
Goal: Why XSponse — allowable uses

ORGANIC POST COPY

The SSE grant has a specific list of what it will fund. Here's the part we love: it maps almost perfectly to one platform.

- ☐ Emergency communication & mass notification
- ☐ Deterrents & security cameras
- ☐ Secure entry & automated lockdowns
- ☐ Emergency response coordination
- ☐ Active-threat training for staff & SROs

XSponse unifies all of it into one AI-driven platform — built by integrators to extend the systems you already own. That keeps costs reasonable, which is exactly what grant reviewers look for.

See how it maps to your district ☐

Post 4 — Urgency — the deadline

	Paired graphic: linkedin_4_deadline.png Format: 1200 × 1200 (square) Goal: Urgency — the deadline
---	---

ORGANIC POST COPY

July 28, 2026.

That's the SSE grant deadline — and it's closer than it looks, because your state agency needs lead time to build its application and decide which districts to prioritize.

The districts that come prepared, with a plan and a budget, are the ones funded first.

We'll help you scope a grant-ready safety plan at no cost. Let's talk ☐

Post 5 — Mission — when seconds matter

	Paired graphic: linkedin_5_seconds_matter.png Format: 1200 × 1200 (square) Goal: Mission — when seconds matter
---	--

ORGANIC POST COPY

In a critical event, most schools don't have a technology problem. They have a coordination problem.

Cameras here. Access control there. Communications somewhere else. In the moment that matters most, seconds are lost in the gaps between systems.

XSpense closes those gaps — unifying detection, alerts, access, and response into one platform that acts automatically.

Built on the hard lessons of Sandy Hook, Parkland, and Uvalde. Fundable, now, through the SSE grant.
